27 Dhanteras
29 Diwali / Lakshmi Puja

November

11 Tulsi Vivah
14 Kartik Purnima / Dev Diwali

December

A festival is dated by the tithi running at sunrise, which is how a panchang names a day. An observance done in the evening - Dhanteras and Lakshmi Puja - is decided by the tithi at pradosh instead, because a tithi lasts about 23 hours 37 minutes and the one at sunset is often the next one. Local panchangs can still differ by a day; where yours does, follow it.
